

Manual: Turnitin for PhD researchers

Education at KU Leuven does not only rely on academic research, but also strives to train doctoral students in scientific research. For instance, it is important to know how to pose a research question, how to search for reliable sources, how to formulate hypotheses, how to analyse data, how to correctly refer to sources and how to clarify the meaning of 'adequate source reference' for your discipline specifically.

If you do not refer to your sources correctly, you commit plagiarism. [These webpages](#) inform you about scientific integrity and plagiarism. There is a [separate portal](#) specifically for research staff containing information about the Commission Scientific Integrity, including a hotline.

Turnitin is a plagiarism prevention service that detects textual matches between thesis and other documents available in electronic form on the Internet, PhD researchers need to screen their manuscript via Turnitin before submission of the thesis.

Your PhD thesis will not be added to any KU Leuven repositories or Turnitin repositories. Consider that you can only upload your PhD thesis to the Turnitin assignment **once**. If you have accidentally already submitted a previous version of your PhD thesis; or if your examination committee wants you to upload a revised version of your PhD thesis after the preliminary defence, please contact [the Doctoral School](#).

To use Turnitin you need a **valid Toledo-account**. If you cannot access Toledo, please contact your [file administrator](#).

Part 1

1. Go to <https://toledo.kuleuven.be/> (do not use Internet Explorer, because this browser is no longer supported!) and log in to Toledo with your student number (make sure you were not already logged in in this browser with your u-number).

2. Go to the **PhD – Biomedical Sciences** community in Toledo
3. In the left-hand menu, click on 'Similarity Report'
4. Click on 'Generate a Turnitin report'
5. Click on 'Upload submission'

Assignment Dashboard

> Generate a Turnitin report ?

Upload Submission

You have no active papers in this assignment.

6. Include your first name and last name in the submission title like this:

last name_ first name _PhD thesis

7. **Upload your thesis** from your computer (via 'upload submission'), or from Dropbox, Google Drive or OneDrive (via 'cloud submission').

Notice: the Turnitin-tool only accepts documents up to 100MB and 800 pages. If your file is larger, please compress your images. If your file still appears to be too large, convert it to a pdf. Browse for your thesis and click your thesis: Click on "open" and then click on "upload and review".

TURNITIN FOR PhD RESEARCHERS

Turnitin is a plagiarism prevention service that detects textual matches between thesis and other documents available in electronic form on the Internet. PhD researchers need to screen their manuscript via Turnitin before submission of the thesis.

To use Turnitin you need a valid Toledo-account. If you cannot access Toledo, please contact your file administrator.

HOW TO CREATE A COMMUNITY IN TOLEDO?

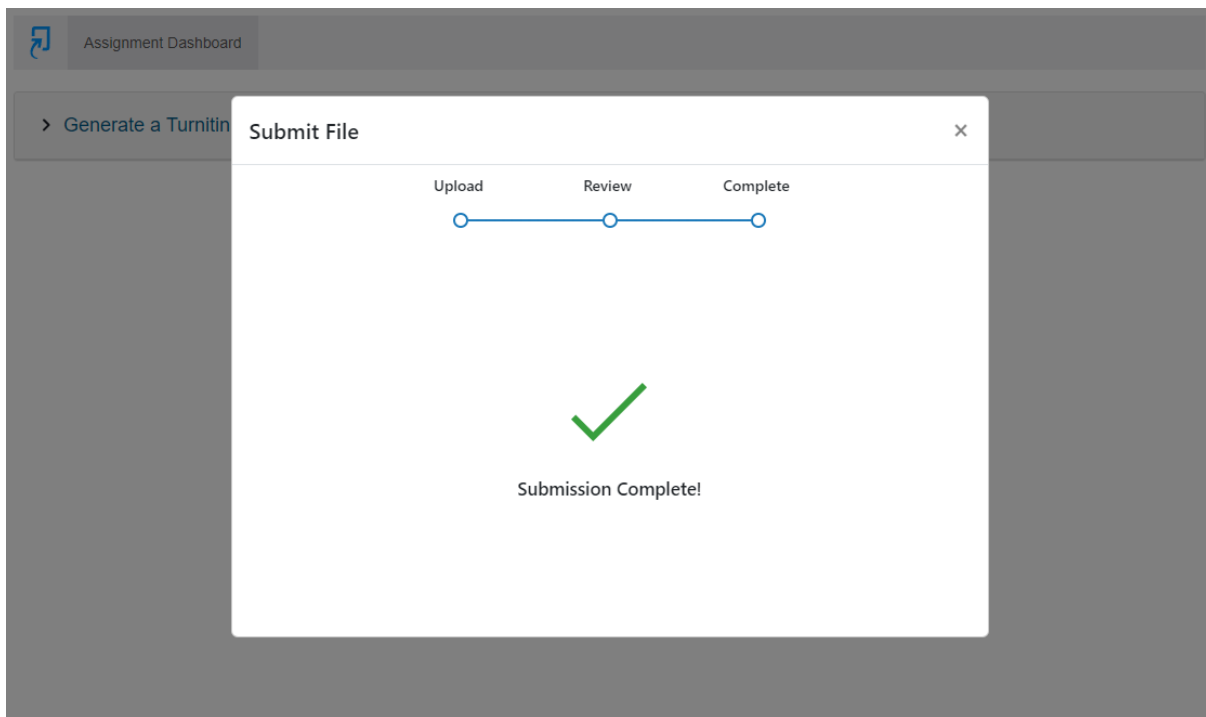

- Go to <http://toledo.kuleuven.be/journal/portal> and log on
- In the "administration"-menu at the top of the page, click "create a new community"
- A new window will open in which you can define your community settings:
 - name your community (e.g. your own name)
 - give a short description to your community (e.g. "Turnitin")
 - click "nextstep"
 - click "create community"
- Your community will appear in the "community list"

HOW TO MAKE A TURNITIN ASSIGNMENT?

Page 1 of 6

Preview Submission Cancel Submission Submit to Turnitin

10. You will get a confirmation screen with 'submission complete!'

Please note: The originality report will not be available instantly, you will have to return later. It can take up to 1 or 2 hours (in most cases, in exceptional cases it can take longer – even up to more than a day) before your report is available. You will not get a notification by email, so you need to check yourself if the originality report is already available.

Part 2

11. Click on “Go to Assignment Inbox”. You will see your assignment in a list.

> Generate a Turnitin report ?

Paper Title	Uploaded	Grade	Similarity
My PHD	25 Apr 2023 13:36 CEST	--	8%   

12. In the column "Similarity", you see a percentage. Note: if it is not yet visible, please wait. It can take up to 1 or 2 hours before your report is available. [This 'Understanding the Turnitin Similarity Report' guide for students](#) helps you to interpret your similarity report.
13. Click the percentage and you will see a similarity report in a new window. In the menu at the right, click the second last 'download' button.

14. From the menu that opens, download "Current view." (do NOT use the 'digital receipt, which is a very short summary. You need to send the FULL similarity report).
15. **Save the report** on your computer.
16. **Send the report** to the Doctoral School (phd.gbiomed@kuleuven.be). We prefer you using wetransfer.com or [Belnet Filesender](#).

Please note that if this step is not fulfilled, Doctoral School cannot approve your milestone 'Submit thesis manuscript' and will wait for sending out the instructions/deadline for comments to your jury members until you have completed this step.
